

Welcome to Challenge at the Highfield School,  
I hope that you are able to return to school to enjoy your last weeks of primary school and have a wonderful summer holiday. I want you to arrive in September ready to learn and to become a fully involved member of our school community. To get the most out of your time at Highfield, you need to have an enquiring mind, be fit, healthy, creative, resilient, kind, organised and independent.

To help you get ready to become a Year 7 at Highfield I would like you to try and complete some of my Year 6 into Year 7 challenges. For every task you complete you will earn house points but more importantly, you will be developing skills for life.

When you come to school in September you can bring your passport and work to my Challenge Club which will run at lunchtime in H206. I look forward to talking to you about your work, adding it to our Challenge display and rewarding you your house points!

Have a great summer!

Miss Brown (Challenge Coordinator)
